

Dear FDA,

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food, to ask that the agency's current policies be changed, and to support all the points in docket # 00P-1211/CPI, specifically:

- All GE foods should be labeled so I am informed and have a choice.
- GE foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing.
- There should be a moratorium on GE foods and crops until long term studies show they are safe for human health and the environment.

GE Food Moratorium

FIG 24 Petition

c/o Organic Consumers

Little Marais, MN 55614

Additional Personal Comments:

Any type of induced hybridization
gene inducement, and non-type genes
(ie fish genes in fruit etc) should be banned
